

## EVENING MENU

Served from 5pm - 9pm

Since we opened our doors in 2015 Curries and Pad Thai have been our most popular dishes and made up over 80% of main dishes sold, During the 2023 season our menu has changed slightly, this is to help us navigate what will be a very tricky season for hospitality, a more compact menu with our most popular dishes ensures we can offer the freshest dishes for our customers to enjoy. If you have eaten with us before and enjoy a particular dish not on our current menu we can often cook for you if pre ordered.

If any of your group have any type of dietary requirements or allergies please inform the person serving you.

### **Red Thai Curry GF**

Thai Classic from central Thailand, The Red curry is coconut based and red from the infusion of red chilli, slightly milder than its green counterpart due to an underlying sweetness from added Pineapple and cherry tomato, Red Curry is best served with lighter protein such as fish.

Vegetable £13.50 - with roasted cashews add £1.50 V VE

### **Jungle Curry GF**

Famous for its fiery spice levels and aromatic flavours, unlike most other Thai curries the Jungle is not made from a coconut base and is instead made from a meat stock, ours is a combination of chicken and veg stock, this makes the jungle curry much thinner in consistency than conventional curries. Named Jungle after the amount of herbs that are used to create the aromatic and spicy punch that is always present.
